“The Summer Symposium is the best summer camp for music students that I have found. The impact on my program is immeasurable. Up until the implementation of the bus routes, I was only able to get maybe 3-5 students to attend the camp each summer. With the help of the bus I was able to get 11 students to attend the camp and my students are still talking about the great experience they had. I am looking forward to seeing the impact these students will have on my program and how they will encourage others to participate as well”
